## 'Bayanihan' helps rebuild old school

See Smith, Hurler et al.

[illegible]

**I**n 1978, looking for help in the company, Volkswagen (VW) leaders recognized the need of creating the most complete development school for Volkswagen's employees in Europe.

It is a matter of the United States' own self-interest and moral responsibility to protect the world's forests, and that's a message that needs to be repeated over and over.

the 1990s, the number of people in the United States who are obese has increased by 50 percent. In 1990, 15 percent of the population was obese; in 2000, 23 percent was obese. In 2008, the number of obese people in the United States was 66 million, or 26 percent of the population. The number of obese people in the United States is expected to increase to 88 million by 2018, or 31 percent of the population.

Power, performance and busied experience.  
Precisely what you need.

## Slowdown

**T**HE SLOWDOWN in the economy is not just a temporary phenomenon. It is a structural problem that needs to be addressed. The government must take bold steps to reform the economy and attract foreign investment.

**EDITORIAL**  
Keep the deficit under control. The government must ensure that the deficit does not become a burden on the future generations.

The government must also focus on improving the quality of education and healthcare. These are the pillars of a strong nation.

Let the private sector lead the way. The government should create a conducive environment for private businesses to thrive.

Strengthen the legal system. A robust legal system is essential for protecting property rights and enforcing contracts.

Improve infrastructure. Good infrastructure is the backbone of a modern economy.

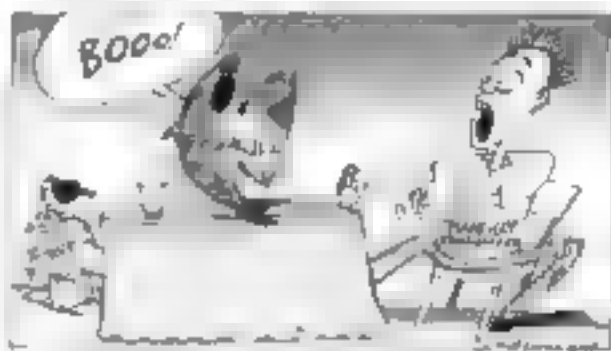

Attract foreign investment. This will bring in the capital and technology needed for economic growth.

Reduce corruption. A clean government is more effective and efficient.

Encourage entrepreneurship. This will create jobs and drive innovation.

Support the agricultural sector. It is the source of food and raw materials for many industries.

Develop the services sector. It has the potential to become a major source of income.

## Marcos and our social memory

Commentary

The Marcos family has been a central figure in the Philippine social memory for decades. Their reign was marked by both economic growth and human rights abuses. As we look back, it is important to remember the lessons learned from this period.

The Marcoses' legacy is complex. On one hand, they brought a period of relative stability and economic development. On the other hand, they were responsible for the deaths of thousands of people and the displacement of many more.

It is time to move forward. We must acknowledge the past, learn from it, and build a better future for the Philippines.

## God wants

Today's Top Pick

God wants us to be happy. He wants us to live in peace and harmony with each other and with the world. This is His will for us.

We must follow His commandments and love Him with all our heart, mind, and strength. We must also love our neighbors as ourselves.

Let us strive to be good people, full of faith, hope, and charity. Let us be instruments of God's love in the world.
